

ALLWEST is seeking an **Engineering Technician** to join our Missoula, Montana office.

If you have WAQTC and/or ACI certifications, nuclear gauge certification and at least one year of applicable experience in soils, asphalt, or concrete testing, you may be the candidate we're looking for.

Wage: \$14 and up, depending on experience.

General Responsibilities:

Engineering Technicians are responsible for monitoring construction operations, performing field tests and checking compliance with plans and specifications. Technicians prepare electronic daily field reports that summarize services provided and calculate test results.

Additional Requirements:

- *Positive attitude with a customer service approach.
- *Effective verbal and written communications skills.
- *Attention to detail.
- *Minimum of high school diploma or equivalent.
- *Valid driver's license and the ability to travel throughout our western Montana service region.

Please send your resume and/or letter of interest to careers@allwesttesting.com

We are an Equal Opportunity Employer.
