

ALLWEST is seeking an experienced Construction Materials Testing Technician (Engineering Technician) based in our Lewiston, Idaho office. We are an employee owned geotechnical engineering, environmental, and construction materials testing firm serving our clients throughout Idaho, Washington, and Montana from our five offices.

Job Responsibilities:

- Review of project plans and specifications,
- Field and lab testing and inspection of soils, asphalt and concrete
- Use of a Nuclear Densometer to identify in-place density following training and certification,
- Writing of daily inspection reports, and communication with project manager, project engineers, contractors, and project owners.

Requirements:

Must demonstrate a strong attention to detail, basic math skills, strong written and verbal communication skills and a client-service approach. This position will require field inspection work, the physical ability to lift at least 50 pounds and a willingness to work in excess of 40 hours per week during the busy summer months.

Applicants with applicable experience and certifications in one or more of the following will be given preference: ACI, ICC, WAQTC, WABO and/or Nuclear Gauge Training.

Benefits:

Full-time eligible employees enjoy access to the following: medical, dental, vision, STD, Life, FSA, PTO, 401k with company match, Employee Stock Ownership Plan.

We are an Equal Opportunity Employer
